**In particular, the company operates:**

- a) for the introduction of advanced technologies in every field, public and private, production and service;**
- b) for the development, on site, of scientific research and its consequent application, in agreement and in close collaboration with the Universities, with public and private research institutes, also in the context of the management of Technopoles, business incubators or similar structures;**
- c) for the preparation and, where necessary, management of structures and services aimed at facilitating the establishment and consolidation of research initiatives, higher education, university and post-university, cultural, including, by way of example but not limited to , the research, accommodation and management of school and / or accommodation facilities, student residences, guesthouses, laboratories, museums and halls, also through the stipulation of annual and / or multi-annual lease and / or management contracts, relating to properties and structures to be used for the reception of students, professors and for the performance of the company's activities; making it available, without any financial return, in favor of institutes, courses, professors, teachers, researchers and students, of financial means for the development of projects, with the formula of a scholarship, loan of honor or similar formulas;**
- d) for the study and implementation of other qualified service sector initiatives at the service of the local society;**
- e) for professional training, mainly higher, permanent and continuous, within the regional, national and community system, pursuing in particular integration with the University and with the local school system.**

Ser.In.Ar. Forlì-Cesena is also the **Managing Body of the Tecnopolo of Forlì-Cesena** from September 2017 until the end of 2021, according to the "Agreement for the management and development of the Tecnopolo di Forlì-Cesena and for the identification of the managing entity" signed on 28/09/2017 by the Founding Members (University of Bologna, Province of Forlì-Cesena, Municipality of Forlì, Municipality of Cesena) including the headquarters of Rocca delle Caminate (granted with provincial determination in 2017, renewed in 2020, and allocated the funding provided by the "POR FESR 2014-2020").

Ser.In.Ar. Forlì-Cesena in 2020 was definitively accredited by the Emilia Romagna Region as a Center for Innovation, type D, of the High Technology Network.

In 2021 it also became a **Certified Business Incubator**.

Ser.In.Ar. Forlì-Cesena is accredited to the Emilia Romagna Region for **Higher Education**, therefore it operates in higher education and higher technical training.

In addition, as part of an institutional collaboration agreement for the realization of professional courses with the University of Bologna, he manages first and second level masters, Higher Education Courses, Lifelong Learning Courses and Summer/Winter School.

**Ser.In.Ar. As a Facilitator of University  
of Bologna Forlì-Cesena Multicampus  
in connection with the Flaminia  
Foundation of Ravenna and UniRimini  
of the Campus of the University of  
Bologna**

SERINAR SUPPORTS THE  
INTRODUCTION OF ADVANCED  
DIDACTICAL METHODOLOGIES LIKE  
SIMULIMPRESA/PRACTICE  
ENTERPRISE AND MASSIVE OPEN  
ON LINE COURSES

Ser.In.Ar has experience in international projects such as: - 2001-2004 Durres Project for cultural entrepreneurship education and qualification for museum personnel in the field of conservation and cataloging of cultural heritage in Durres (Albania); - Pilot project "Design and construction of the Urban Archaeological Park of Durres" 2004; - Central European Initiative Project (CEI) on "Restoration and revitalization of the Roman Amphitheater. European experiences and applicability in the Balkan countries. Exploratory seminar; - Development and enhancement of local systems for the support of innovative SMEs in Albania, Bosnia and Serbia; - Start of professional training in the Elbasan area with particular regard to the weaker categories Regional Law 24 June 2002 2008-2009; - Education and technical assistance for the development of SMEs in the port of Durres - Ministry of Foreign Affairs 2005; Collaborative Reformation of Curricula on Resilience Management with Intelligent Systems in Open Source and Augmented Reality (RESINT) Project Number: 540096-LLP-1-2013-1-IT-ERASMUS-EKA - University of Bologna 2013.

In these activities SERINAR develops in particular a methodology in the transfer of knowledge from the non-academic world to the academic one, extending the experience of local governments to the realization of university courses.

SERINAR on the PICAPS Project will be able to contribute to a series of activities as detailed in the sections of the WP4-PICAPS work package.

**Management of the Network  
with local Enterprises and  
Support to Enterprises Start up  
like the convention with the  
Cesena Lab Incubator**
